I would recommend getting rid of this model ASAP. The 1984 was the absolute worst XR250 built. The only XR worse was the 1984 XR200 that turned even more RPM. The 1985 XR200 and XR250 were a bit better but not much. They had a tendency to fry the head, cam, and cam followers and upper rod bearing surface. Luckily not too many still running. Cher ...

How do i adjust valves on a 1984 Honda XR500? That's probably your best bet. But it involves removing the seat and tank, removing the chrome rocker inspection covers on the head cover, and pulling the timing inspection plug on the left engine cover.Or if you know thumpers well you can do it by feel of the kick lever and by looking at the rocker arm movement.

1979 Honda Xr 500R. A 1979 Honda xr500 as shown in first picture is how I received it. I then stripped it down to the frame, removed all rust and paint then spray primed it. had to get rid of the: seat, front fender, tool bag, battery, hand grips and some small parts. have the engine, carb, frame, tank, ect. fuel tank has dents but is useable. one of the 2 tires is flat, engine compressed but ...
