I am having a problem with my Honda ATV TRX 300S. Recently I tried to start it. The electric starter would not stop cranking the engine even though I turned the key off. I had to disconnect the battery. The switch on the handlebars appears to be working ok. It depresses and releases quickly. Is this a problem with the switch, the solenoid, or the starter itself ?

At their Dealer show in Nashville, Tennessee, American Honda released details for 2005 models and there were a slew of changes. Touting many updates across the utility line, many of the ute machines receive what Honda is calling "SUV" styling. We're not sure where they're trying to go with that, but nonetheless, there are some worthwhile updates that trail riders specifically, will like.
