Automotive petrol engines. BMW is well known for its history of inline-six (straight-six) engines, a layout it continues to use to this day despite most other manufacturers switching to a V6 layout. The more common inline-four and V8 layouts are also produced by BMW, and at times the company has produced inline-three, V10 and V12 engines. ...

The first and only BMW ever to exceed 200 mph was turbocharged by RB Racing and used an RSR Closed Loop Fuel Injection system with 8 injectors. RB Racing turbos were the first BMWs into both the 10's and 9's at the drag strip. They were also the world's first fuel injected and intercooled bikes in 1985 with the debut of the new K-bikes.
