The collections also include classic literature and books that are obsolete.

Megaprojects And Risk An Anatomy

Megaprojects and Risk: An Anatomy of Ambition (2003) by Bent Flyvbjerg is a dry but interesting look at how expensive projects are chronically over budget, under utilised and delivered late. The book gives the strong impression that the big budget government and private projects like the Channel Tunnel, the Øresund Bridge and many rail projects are chronically misrepresented in financial modelling that precedes them.
