Communication with the bridge is by ship's interior-dial sound-power telephone systems and airphone intercom. CHART/RADIO ROOM - The chart room is located aft of the pilot house. The progress of the ship is plotted on charts in this room. It is also where the ship's inventory of charts and navigational publications are stowed and maintained.

Section 3: Vessel Layout Description | Scripps Institution ...

As can be seen in the diagram above, the main engines are usually situated amidships, with the boiler room immediately forward of the engine room. The engine is connected to the thrust bearing, which transmits power to the propellers along the propeller shaft(s). As the propellor turns, it tries to push the prop-shaft forwards. The thrust bearing effectively transmits this force from the propellor to the bottom of the ship.
