Issues in social and political thought have been central to Chinese philosophy from its earliest moments down to the present day. Neither “social” nor “political” have ready correlates in Chinese prior to the nineteenth century, but Chinese thinkers consistently have been concerned with understanding how both individuals and institutions have broad effects in what we can call both social and political modes.

Leo Strauss

In the political from, social liberalism is the ideology of liberty, rights, and egalitarianism with a focus on collective equally (over individual liberty). In this sense it is an evolution of classical liberalism focused on social equality (it generally still retains its classical liberal views, but not at the expense of social equality).
